Important - Collection procedures after school

An incident occurred in the car park earlier this week, so we have reviewed our car park risk assessment and as a result of the incident, but also because of the building work taking place and the car park being busier than normal, we want to clarify where parents should wait to collect children after school, to ensure everyone's safety.

There will now be four areas where parents can wait for their children:
1. On the top playground for collecting children from Reception, Year 1 and Year 2 (for Year 1/2 children who have a sibling in Year 3/4, or a sibling in Year 5/6 where you have not given permission for them to leave school unaccompanied, the older sibling will be brought to the top playground by their teacher)

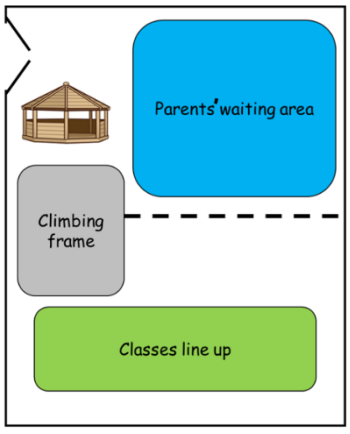

2. On the bottom playground (near the gates) for parents collecting children from Years 3-6

3. The paved area outside the main entrance doors/offices, for parents collecting from Nursery

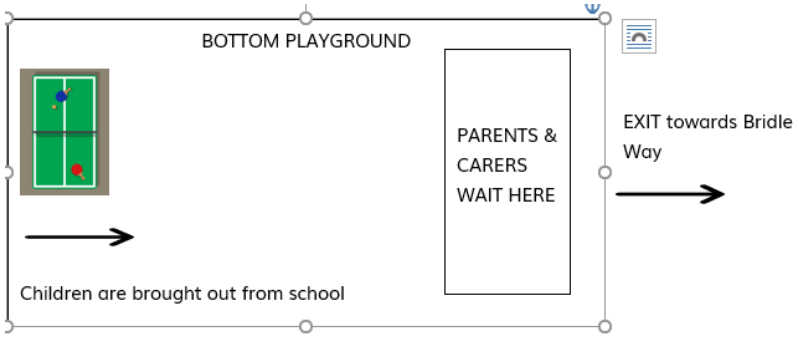

4. On the green outside the main school gates, for parents whose children can leave school unaccompanied.

Parents are currently sometimes waiting on the grass verges, or the driveway that leads to the bottom playground. **For safety reasons, please do not wait on any of the grassed areas around the car park, or on the driveway.**

In the top playground please wait here:

In the bottom playground, please wait here:

Thank you for your support,
Andrea Bettridge
